

Information about the duty of supervision for children

Dear workshop participants, dear parents,

We, the Sharing the Presence GmbH, are pleased that participants also accompanied by children will take part in our workshop from July 28 - August 3, 2024 in Oberlethe. As the safety of the children is important, we would like to point out the following to the participants:

We ask for your understanding that we, Sharing the Presence GmbH, our legal representatives and our vicarious agents cannot and will not assume any supervision for children, especially for organizational and insurance reasons. A transfer of the duty of supervision to us, Sharing the Presence GmbH, or our staff, including our legal representatives and our vicarious agents, will not take place.

The duty of supervision for children remains with their parents. Minors (persons under the age of 18) may only enter and remain in or on the event building and grounds under the supervision and in the company of their parents or a parent, and only to the extent permitted by us. Parents must supervise their children at all times and, in particular, instruct them about dangers as appropriate to the circumstances and supervise them.

Special Notice:

We further point out that there is a lake on the premises. This lake is not secured from entering, nor is the shore sufficiently fortified. Playing at and in the lake as well as bathing in it are not permitted. There may be a risk of drowning. We therefore recommend that parents take special care here and not allow children near the lake or on the premises ever unsupervised, and that they be especially instructed about the dangers of the lake and that they be supervised at all times. We, Sharing the Presence GmbH, do not assume any supervision in this respect either.

I confirm that I have read and understood the notice.

Dear parents.

We are very happy that you are planning to come to this year's Summer Intensive.

We specifically ask that you give your children enough time to arrive safely with their respective chaperones and only leave when your children have truly landed. You are always welcome to spend a morning or afternoon there with your children or to visit your children in between.

And very important: Please always pick up your children on time, even if there is overdraft in the tent. It is simply not nice for the children to have to wait while others are already being picked up. Below we have a few organizational questions that we ask you to answer and bring with you to the respective care tent on the first day.

We wish you a wonderful workshop and an intimate and inspiring time with your child(ren)!

Information about the child

1. Name of the child: _____ born on: _____
2. name and address of the legal guardian(s):

3. In case of emergency the following cell phone number:

4. Child's health insurance: _____
5. My child must take the following medications regularly (if yes, which ones):
_____ **(Please provide these in sufficient quantity)!**
6. My child has the following special needs (if yes, what): (e.g. allergies, food intolerances, diabetes, bladder weakness). _____
7. In the course of a program point I allow my child to go swimming in the lake. Swimming skills are required. (if No, self-care required). **My child can/may swim with: Yes _____ No _____**
